

2008

Discover Sydney's Coastline with the Sydney Coastal Councils Group's Summer Activities Program

Discover Sydney's coastal environment with over 50 free events in January. This program is an initiative of the Sydney Coastal Councils Group to promote understanding and appreciation of the coastal environment in Sydney. It consists of a range of planned activities organised by 15 coastal councils in the Sydney. There are dozens of locations - from Pittwater in the north, to Sutherland in the south.

Activities are open to people of all ages and levels of fitness. There's something for everyone, from rockpool rambles to snorkelling, wetland tours to educational talks and sea kayaking.

The Sydney Coastal Councils Group would like to thank Coastcare for their support of the 2008 Summer Activities Program.
