

2009

Discover Sydney's Coastline with the Sydney Coastal Councils Group's Summer Activities Program

Discover Sydney's coastal environment with over 50 free events in January. This program is an initiative of the Sydney Coastal Councils Group to promote understanding and appreciation of the coastal environment in Sydney. It consists of a range of planned activities organised by 15 coastal councils in the Sydney. There are dozens of locations - from Pittwater in the north, to Sutherland in the south.

Activities are open to people of all ages and levels of fitness. There's something for everyone, from rockpool rambles to snorkelling, wetland tours to educational talks and sea kayaking.

The Sydney Coastal Councils Group would like to thank Coastcare for their support of the 2009 Summer Activities Program.

This program has been supported by Coastcare and the Life on the Edge campaign. For more information, visit www.lifeontheedge.org.au.

Join the challenge

Walk, run, swim, cycle, kayak, surf, dive... think you can cover a total 100km by any non-motorised means over summer? Or maybe spend ten hours in the ocean? And want to help our coast while you do it? Sign up with Coastcare's **Life On The Edge** campaign today and join a collective effort to circumnavigate our entire coastline – a whopping 36,000km – while raising money for Coastcare projects nationwide. You can use some of the activities on the Summer Activities Program to count towards your challenge! If the idea of racking up 100km solo doesn't appeal, there's an option for groups to split the distance. For more information, visit www.lifeontheedge.org.au.
