FOREWORD

The Sydney Coastal Councils Group (SCCG) was established in 1989, and since that time, has promoted collaboration between Member Councils on environmental issues relating to sustainable management of the urban coastal and estuarine environment.

The SCCG region is defined as the local government areas of its Member Councils including Bayside, Inner West, Northern Beaches, North Sydney, Randwick, Sutherland Shire, Waverley, Willoughby and Woollahra, and the adjacent marine waters within three nautical miles of the coastline.

This coastal and estuarine region contains a rich diversity of natural and cultural assets that are recognised and valued nationally and internationally. The region experiences significant industrial and residential development pressures as well as increased tourism, recreational use, and is impacted on by the effects of climate change.

The Strategic Plan 2019-2029 recognises these pressures and impacts facing our region. It also recognises that coastal management is very much a cross sectoral activity which involves the three spheres of government, regional bodies, industry and the community sharing responsibility for its sustainable management.

Over the next decade there will be unprecedented change to our coastal communities, government services, commerce and to the way in which our coastal and estuarine areas are managed. It is critical that our response builds on our experience and collaborative efforts, while harnessing innovations in technology and management practices.

This Strategic Plan 2019-2029 provides the strategic direction for the SCCG over the next ten-year period. It identified regional actions that are a priority for our Member Councils and the communities they service under our four operating pillars – collaboration, capacity building, research and advocacy. The Plan also identified key performance indicators to enable our performance to be measured and our actions to be valued and adapted over time.

The Strategic Plan has been developed in direct consultation with our Member Councils through the Executive Committee, Full Group, General Managers’ Forum and Technical Committee. It also reflects and aligns with state and federal government priorities for coastal and estuarine managements. Thank you to all SCCG Member Council representatives and staff who provided feedback and assisted in the preparation of this document.

Sarah Joyce
SCCG Executive Officer
‘Through over 30 years of action, SCCG has been a key driver of sustainable and integrated coastal and estuarine management for the Sydney region’.

Established in 1989, the SCCG is a regional organisation of councils that advances sustainable management of Sydney’s urban coastal environment. The scope of work of the SCCG centres on four key activities – collaboration, capacity building, advocacy and research.

The SCCG works collaboratively across its region and harnesses the individual and collective knowledge of our Member Councils, a suite of technical and academic experts and other coastal stakeholders to take leadership on sustainable coastal management.

SCCG provides benefits to Councils across a range of coastal management issues including; climate change adaptation and resilience; coastal infrastructure and asset management; strategic and land use planning; biodiversity restoration and conservation; and integrated water management.

SCCG has nine Member Councils who represent over 1.3 million Sydneysiders, collectively covering an area of approximately 800 square kilometres with a coastline of almost 600 kilometres, encompassing the waterways of Broken Bay, Pittwater, Port Jackson, Port Hacking, Botany Bay, Middle and North Harbours and the lower reaches of the Lane Cove, Georges and Cooks Rivers.
SCCG GOVERNANCE

The SCCG was incorporated in 1998 and the SCCG Constitution sets out the objectives and rules of the Group.

Guided by this Strategic Plan the SCCG is providing benefits to Councils across a range of coastal management issues including:

- climate change adaptation and resilience
- coastal infrastructure and asset management
- strategic and land use planning
- biodiversity restoration and conservation
- integrated water management.

The strength of the SCCG rests in engagement and shared expertise of the elected representatives, executive and technical staff of our member Councils, and the capacity of our Secretariat to facilitate coordination, collaboration and knowledge-sharing within the Group and provide general and specialised expertise in delivering a range of services and programs that build the capacity of members in the management of Sydney’s urban coastal and estuarine environments.

Leadership and management of SCCG is a collaborative effort between the SCCG Secretariat, Councillors and Council staff from our Member Councils.

The SCCG governance structure is shown below.

Secretariat:

The SCCG Secretariat is comprised of the Executive Officer, and one full time and one part-time staff member, and from time to time other grant-based project and/or contract staff. The Executive Officer is responsible for the effective and efficient delivery of the strategic plan as well as the day to day operations of the Secretariat. The Executive Officer also takes on the role as the Public Officer required for incorporated associations under the Associations Incorporation Act 2009.
Executive Committee:

The Executive Committee acts as the Board of the Group. Membership consists of between 5 to 8 elected delegates: Chairperson, two Vice-Chairpersons (Ocean and Estuarine), Secretary, Treasurer, and up to three other Delegates. Delegates are appointed by vote at the Annual General Meeting. The Committee meets quarterly, or as required. The Executive Committee consisting of representatives from member Councils is responsible for managing the affairs of the association in accordance with the SCCG Constitution and the Associations Incorporation Act 2009.

Full Group Committee:

Membership consists of 1-3 elected and/or staff representatives as determined by the Member Council. Meetings are held three times per year and direct the core activities of the SCCG. Nominated Honorary Members are appointed as observers to this Committee at the Annual General Meeting for their expertise and/or contribution to the work of the SCCG.

General Managers Forum:

Membership consists of General Managers and/or Senior Staff from each Member Council. The GM’s Forum meets twice a year to provide strategic direction to the SCCG and to advise on the review and implementation of the SCCG Strategic Plan.

Technical Committee:

Membership consists of one or more professional staff from each Member Council, including strategic planners, environmental officers, engineers, sustainability educators, and other relevant staff. The Technical Committee meets four times a year to exchange information, collaborate on current and emerging needs and develop regional projects and programs.

Sub-Committees:

These groups/committees are periodically established to advance specific issues and projects, and may comprise elected and/or technical members, and may occasionally include external experts and other stakeholders.

Membership:

In 2019, SCCG comprised nine member Councils;

- Bayside
- Inner West
- Northern Beaches
- North Sydney
- Randwick
- Sutherland
- Waverley
- Willoughby
- Woollahra

SCCG are investigating opportunities for expanding SCCG membership to provide our services to a wider region for consistent sustainable management of the coast and estuarine environment.
Governance Goal

The SCCG is a respected organisation achieving good governance.

This goal is achieved through the objectives and initiatives provided below, as well as through the development of and compliance with SCCG policies, procedures and registers.

<table>
<thead>
<tr>
<th>Objective</th>
<th>Initiatives</th>
<th>KPI’s</th>
</tr>
</thead>
</table>
| The SCCG Governance structure is appropriate for the organisation | • Become a member of the Associations Forum to support the Public Officer and Executive Committee undertake its required functions  
• Members of the Committees understand and conduct their roles and responsibilities under the Associations Incorporation Act  
• Explore options to improve the governance structure so that it drives the delivery of the Strategic Plan. | • Information provided to committee members  
• on-track delivery of initiatives  
• Membership of Associations Forum |
| The SCCG operating budget supports its strategic objectives | • Encourage a 3-year commitment by Member Councils to the SCCG with membership fee remaining as annual  
• Explore options to increase our revenue base including expanding our membership, seeking grant funding and any ‘in-kind’ services our members can provide  
• Apply for relevant government grants when they become available | • Options paper developed  
• Long-term financial plan developed  
• Grants that are relevant are applied for |
| SCCG internal policies and procedures are appropriate and maintained | • Review, update and prepare SCCG policies and procedures as required | • Reviewed as per schedule |
| Highly skilled staff are attracted, retained and supported | • Enable staff to attend relevant conferences  
• Enable staff to attend one formal training session per year | • Professional development opportunities  
• Up-to-date policies and procedures |
| SCCG Committees are engaged and assist in achieving the goals, mission and vision of the SCCG. | • Member attendance and participation at committee meetings  
• Members support the Secretariat by providing advice, information, and strategic direction  
• Members act as an advocate for the SCCG (both internally and externally) | • Attendance at committee meetings |
PURPOSE OF THE PLAN

The SCCG Strategic Plan 2019-2029 will drive the organisation forward over the next decade. It consists of a new vision and sets out six goals that bring focus to providing value for members and enhancing and protecting the coastal and estuarine environments.

This ten-year Strategic Plan includes:
- Strategic Framework (vision, mission, guiding principles)
- A three-year Delivery Program (goals and objectives - 2019-2022)
- Annual Operational Plan and budget (Initiatives - 2019-2020)

This Strategic Plan builds upon the long-term outcomes identified in the SCCG’s previous Strategic Plan 2015-2019 and Business Plan 2017-19 including an evaluation of the effectiveness and timely delivery of these strategies. It also aligns with the Integrated Planning and Reporting Framework for local government.

Alignment with key strategic documents developed by our Member Councils and key stakeholders is vital to the success of the strategic plan. It therefore seeks to align with relevant legislation and policies, in particular:
- the Greater Sydney Commission’s Metropolis of Three Cities and District Plans
- The Resilient Sydney Strategy (2018)
- Coastal Management Act 2016
- Marine Estate Management Act 2014
- Australia’s obligations relating to biodiversity
DELIVERING THE PLAN

Leadership and management of the SCCG is a collaborative effort between the SCCG Secretariat, and Councillors and Council staff that represent our Member Councils on the various Committees of the SCCG.

The SCCG Executive Officer is responsible for the effective and efficient delivery of the Strategic Plan and the SCCG’s day to day operations, supported by the staff within the Secretariat, and the Executive Committee.

The Operational Plan and budget will be reviewed and updated on an annual basis in consultation with Member Councils to ensure the operational plan continues to meet member Councils’ needs, and priority areas are addressed.

The Delivery Program will be reviewed on a three-year basis to ensure it is consistently aligning with the strategic direction and values of our member Councils, and consistently achieving the objectives, mission and vision of the organization.

This Strategic Plan also illustrates how SCCG will measure its progress.
SCCG STRATEGIC FRAMEWORK

Vision

- Resilient and healthy coastal and estuarine environments that are protected, conserved and managed in a manner consistent with the principles of ecologically sustainable development

Mission

- Engaging with our members and their communities to lead sustainable management of our region’s coastal and estuarine environment through collaboration, capacity building, advocacy and research

Guiding Principles

- P1- Restore, protect and enhance the coastal environment, its associated ecosystems, ecological and physical processes and biodiversity
- P2 - Facilitate the sustainable use of coastal resources, now and in the future
- P3 - Promote adaptive, integrated and participatory management of the coast
3 YEAR DELIVERY PROGRAM

The vision and mission of the SCCG will be achieved through a delivery program comprising six goals and associated objectives, as provided below.

1. People and places adapt to a changing climate and future shocks and stressors
   - The resilience of our region to the effects of natural hazards and climate change is increased
   - Coastal management programs in our region are delivered effectively and efficiently

2. Waterways and the foreshore are protected and healthier
   - Direct and indirect pollution loads are reduced in key hotspots in the region
   - Water quality at all beaches in our region are rated as 'good' or 'higher'

3. Marine biodiversity is protected in the bioregion
   - Increase the protection of marine biodiversity in the Hawkesbury Shelf marine bioregion
   - Improve compliance actions in existing marine protected areas

4. The SCCG Region is comprised of sustainable, livable and 'smart' cities
   - Water flows are captured and re-used through Water Sensitive Urban Design practices.
   - Important biodiversity/riparian corridors are identified and protected.

5. There is a collaborative, effective and consistent approach to coastal and estuarine management
   - Policies and practices are supporting improvements in health and resilience
   - Members are actively engaged
   - Strong partnerships are built and maintained

6. SCCG is trusted and respected to make representations that reflect the values of its members
   - Our strategic objectives align with the concerns, interests and needs of our members
   - Members values are reflected in SCCG’s work
   - Maintain a high standard and ensure relevance of SCCG outputs for members
The Operational Plan 2019-2020 includes initiatives for each of the six goals and objectives under the 3 Year Delivery Program and identifies the priority of each initiative to SCCG members.

These initiatives identified with the Operational Plan will be undertaken and progress will be reported on a quarterly basis to members. The Operational Plan will be reviewed annually and measured through specific key performance indicators.

The Operational Plan is provided below.

An operating budget for the 2019/20 financial year has been developed to ensure the efficient running of the SCCG Secretariat and the delivery of the Operational Plan. SCCG income is comprised of membership contributions and supplemented by grant and project engagement funding.

**SCCG Income**  
Memberships (Contributions) $340,591.00

**SCCG Operating Expenses**  
(Inc. wages, training, secretariat office costs, software, legal, consultancy) $335,153.62
### 1. PEOPLE AND PLACES ADAPT TO CLIMATE CHANGE AND FUTURE SHOCKS/STRESSORS
