

FREE ONLINE EVENT

Erosion & Sediment Control Training

Wednesday, 19 August 2026

10:00 am – 12:00 pm

Join us as we celebrate 10 years of *Get the Site Right* with a free online training session designed to help councils prepare for the August Blitz Week (24-28 August). Whether you're new to erosion and sediment control or looking to refresh your knowledge, this interactive session will provide practical skills you can apply immediately during construction site inspections.

WHAT YOU'LL LEARN

By the end of the session you will be able to:

- ✓ Understand the significant environmental impacts of soil erosion on construction sites
- ✓ Identify best-practice erosion and sediment control products and techniques.
- ✓ Assess on-site erosion and sediment controls and recommend improvements.

Participants will need a computer or tablet with internet access, speakers, a microphone, and camera. Questions are welcome throughout the session.

WHO SHOULD ATTEND

This training is ideal for:

- Compliance Officers
- Rangers
- Development and Building Compliance Officers
- Compliance and Planning Managers
- Strategic and Development Planners
- Anyone involved in building site compliance or development assessment

Please feel free to share this invitation with other staff in your organisation who may benefit from attending.

ABOUT THE TRAINER

Training will be delivered by [SEEC \(Strategic Environmental and Engineering Consulting\)](#), one of Australia's leading specialists in erosion and sediment control.

The session will be presented by Kel Sanson (CPESC), who has decades of practical experience providing consulting, auditing, design, and training services to government and industry throughout Australia.

Kel is widely recognised for delivering engaging, practical training using real-world examples from construction sites.
